

Verification Statement

DEKRA Certification GmbH verified the quantification and reporting of greenhouse gas (GHG) emissions from transport chain operations of

General Logistics Systems B.V.

**Spaklerweg 50 – 52
1114 AE Amsterdam-Duivendrecht
The Netherlands**

dated 19 September 2025, version 1.4.

The organisational scope covered all GLS subsidiaries in Europe and North America as well as the European network provider GLS International.

We confirm the reasonable assurance of the information provided in the greenhouse gas (GHG) statement, as well as its conformity with the criteria set out in ISO 14083:2023.

The verification of the greenhouse gas (GHG) statement was conducted in accordance with the requirements of ISO 14064-3:2019.

Within the defined reporting boundaries, the quantified greenhouse gas emissions and greenhouse gas emission intensities are confirmed:

Emission source	Abbreviation	Values	Unit
Total GHG emissions from operation	GVO,T / GHEO,T	864.081	t CO ₂ e
Total GHG emissions from energy provision	GVEP,T / GHEEP,T	314.345	t CO ₂ e
Total GHG emissions from operation and energy provision	GT	1.178.426	t CO ₂ e
Total GHG emissions from packaging life cycle	-	-	-

Agreed level of assurance

Reasonable assurance

Materiality threshold

5 %

This verification statement is valid only in conjunction with the organizational and reporting boundaries, the objectives and evaluation criteria, and the conclusions specified in Verification Report No. A23071350.

Verification registration number: 1011025-008
