

GLS Romania helps people affected by floods in Alba County

Due to the severe meteorological phenomena in Alba County, many localities were affected. GLS Romania supports families in need.

Finding out about this situation, GLS Romania empathizes with this event that affected the lives of many people that were left without their houses and food. The company's employees have united and created a mission to help people affected by the floods by supporting them with water and non-perishable food worth thousands of euros.

"Having an extensive network of warehouses throughout the country, we quickly organized and contact our colleagues in the affected area to manage as quickly as possible this situation which for us has become a mission. At GLS, the desire to help has become an important item on our daily agenda. " said Miklos Szoboszlay, Division Manager of GLS Romania.

GLS Group

GLS Group offers reliable and high quality parcel services for over 240,000 customers, complemented by delivery and express delivery services. "Quality leader in shipping logistics" is the principle that GLS is guided by. Through wholly owned companies and partnerships, GLS Group covers 40 countries and is connected globally through contractual agreements. Through its terrestrial network, GLS is one of the largest providers of parcel services in Europe. GLS Group also operates through wholly owned subsidiaries in Canada and on the west coast of the United States. The GLS network consists of more than 70 central and regional transshipment points and approximately 1,400 warehouses supported by over 28,000 delivery vehicles and 4,000 trucks for the main lines. GLS has around 19,000 employees. In fiscal year 2019/20, GLS generated revenues of 3.6 billion euros and delivered over 667 million shipments.
